Simply upload your file and share the link. Just upload the file you want to share with your friends and we send you a download link to your file. You don'tneed any special software installed to be able to download your files. There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. We have no file size limit. It is also allowed to link to the download page from websites and communities. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. The cost of that data transfer is covered by your internet service or the data plan on your phone. You can upload any type of file (movies, music, documents, images, zip files and more). Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You decide who you want to share your files with. Keep your files private, or send your download links only to friends or family. Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On the other hand, using file can actually save you money. File is free to use with no gotchas and no hidden fees. So try our free and simple filehosting service now. Our service is completely free for everyone. No account or credit card isrequired to get started. You can give this download link to your friends by mail or instant messenger. Alternatively you can choose to share your download linkson blogs, forums and social networking sites. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Why paystorage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferredwithin their apps. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. filehos
